

Draper Header bracket instructions

Fig. 1

For the MacDon FD70, a rectangular leg attaches to back of flex head with $\frac{3}{4}$ " pin. (Fig. 1) Insert $\frac{3}{8}$ " bolt behind the leg to keep it from swinging. (Fig. 2)

Fig. 2

Fig. 3

Head fastens to hauler bracket by inserting pin through sleeve on leg bottom. (Fig. 3) Riser brackets can be positioned on center of lower rail if needed to support the combine adapter. (Fig. 4)
